Garden Checklist

1. Feed Azaleas, Camellias and Rhododendrons if it's been a month or six weeks since their last meal.
2. Shop for container grown Roses in bloom. In your garden keep faded Rose blooms cut off.
3. Plant the dwarf Dahlias for a quick show of color.
4. Feed potted and container grown Fuchsias and Begonias with liquid fish fertilizer.
5. Water lawns deeply to discourage shallow rooting. Use a soaker on sloping lawns to prevent needless runoff.

AMONG OTHERS

State Controller Looking for Owners of Opium Pipe, Violin

State Controller Alan Cranston is looking for the rightful owners of: A do-it-yourself explosives kit, an opium pipe, a violin and a bottle of reasonably aged champagne.

These are a few of the items contained in almost 40,000 abandoned safe deposit boxes now in the technical custody of the Controller.

"Mostly the boxes contain the usual things — insurance policies, birth and death certificates, military discharge papers, and other personal papers," Cranston said. "But the inventories also list a variety of other articles calculated to arouse curiosity concerning those who deposited them."

The "explosives kit" found in one box consists of several bottles of chemicals commonly used in making explosives plus a formula for putting them together for a blast. Illegal narcotics were found in another box. Local and federal authorities were called in to investigate.

CRANSTON explained that his office acquired custody of the unclaimed contents of the boxes and other items left with banks for safekeeping under provisions of the Unclaimed Property Act enacted in 1959. The act specifies a procedure for disposing of property held in the names of persons who cannot be located.

Under provisions of the act, the state this week and next will publish some 16,000 names under which property valued at \$25 or more is held. The lists will be published in the counties in which the owners' last known addresses are located.

ANYONE WHO believes he has an interest in the proper-

ty is asked to address inquiries to: The State Controller's Office, Bureau of Unclaimed Property, Box 1019, Sacramento, Calif.

The property will be held for 65 days after publication of the list. Items thereafter remaining unclaimed will be transferred to the Controller's office for disposition.

"All unclaimed articles will be screened to determine their monetary or historical value, if any," Cranston said.

"DOCUMENTS of possible historical value will be turned over to the Archives Bureau of the Secretary of State's office for examination. Articles of monetary value will be sold at public auction."

Revenue received from the sale of articles eventually will be deposited in the General Fund. It first passes through the Unclaimed Property Fund, however, and \$50,000 is always kept in the fund to meet possible claims.

County GOP To Assemble Next Week

More than 2000 Los Angeles County Republicans will assemble June 1 in the Hollywood Palladium to hear an address by former Vice President Richard M. Nixon—highlight of the fund-raising "Road to Victory" dinner.

This was the announcement made yesterday by Edward Mills, serving as chairman of the event.

Nixon recently addressed similar functions in Chicago, Detroit and San Francisco.

The Palladium fete is being staged the same evening as a GOP fund-raising dinner is held in Washington, D.C. with former President Dwight D. Eisenhower as the key speaker.

Pat Nixon, wife of the Los Angeles meeting speaker, will return to the Southland to attend the affair, Mills disclosed.

Harold Ramser is in charge of all arrangements for the Palladium gathering. For the past decade, he has headed Los Angeles County Republican fund-raising dinners, including the January 1960 record-breaker which found 7000 in attendance at Pan Pacific Auditorium.

Ticket reservations may be made through Road to Victory dinner headquarters, 914 South Olive St., Los Angeles.

Two Local CPAs Get Institute Membership

Thomas William Orr, Torrance CPA, and Chester H. Widmann, Rolling Hills Estates CPA, have been elected members of the American Institute of Certified Public Accountants.

Orr is with the Los Angeles office of Arthur Young & Co. and Widmann is with the Feller Mfg. Co. in Torrance.

Sound Truck Used to Tell Of Plaster

A unique experiment with sound trucks has paid off with interest for the Southern California Plastering Institute, who use the moving public address systems to extol the benefits of genuine lath and plaster to prospective home buyers in housing tracts throughout the greater Los Angeles area.

The sound truck program, which is now in its fourth year of operation, has visited 584 housing developments in 89 different communities in Los Angeles and Orange Counties on weekends and holidays.

"When we first conceived the idea of using sound trucks, we weren't certain as to how it would go over," a spokesman for the Institute declared. "However, it has caught on with the greatest impact of anything we have done since we started to use the 'Knock on the Wall' campaign."

The Southern California Plastering Institute indicated that it planned to continue the use of sound trucks indefinitely.
